

Actividad 3

1. Haz un *fork* del repositorio localizado en la siguiente url:
<https://github.com/immacabanes/practicaFork.git>

The screenshot shows the GitHub repository page for Hugo-DAM / practicaFork. The repository is forked from immacabanes/practicaFork. It has 79 commits, 1 branch, 0 packages, 0 releases, 12 contributors, and is licensed under GPL-3.0. The current branch is master. The repository contains several files: capturas, LICENSE, README.md, discos.txt, libros.txt, and peliculas.txt. The commit history shows several merges of the master branch into master, with the latest commit being 4266522, made 4 hours ago.

2. Clona este repositorio en tu máquina local

The screenshot shows the 'Clone a repository' dialog box. It has three tabs: 'GitHub.com', 'GitHub Enterprise Server', and 'URL'. The 'URL' tab is selected. The 'Repository URL or GitHub username and repository' field contains the URL 'https://github.com/Hugo-DAM/practicaFork.git'. The 'Local path' field contains the path 'D:\Entornos_Desarrollo\PracticaFork\practicaFork'. There are 'Clone' and 'Cancel' buttons at the bottom.

3. Realiza un primer commit para poner tu nombre y apellidos en el fichero README.md

4.

The screenshot shows the VS Code interface with the 'practicaFork' repository and 'Hugo' branch. The 'Changes' panel on the left shows '1 changed file' and 'README.md' is selected. The main editor displays the diff for README.md, showing changes from line 22 to 26. The diff shows the addition of the user's name and surname to the README file. The commit message field is empty, and the 'Commit to Hugo' button is visible at the bottom.

5. Haz capturas de pantalla de los comandos que has utilizado para clonar el repositorio en local, hacer los commits y subir los cambios a GitHub.

No he usado comandos, lo he hecho usando interfaz gráfica.

6. Incluye las capturas de pantalla en el repositorio dentro de la carpeta capturas. Añádelas también al repositorio de manera que queden guardadas en tu repositorio en GitHub.

7. Realiza una pull request indicando en el mensaje que has completado la tarea.

El apartado 6 y 7 se verán reflejados en el repositorio.
